SE80-6A

Dear Cessna Owner:

An improved brace system which attaches the aft end of both exhaust mufflers to the engine sump is now available.

It is recommended that the new brace system be installed on your aircraft to improve the security and service life of the center and rear muffler braces and throttle control brackets.

For further information, contact your Cessna Dealer referencing Service Information Letter SE80-6.

Your affected aircraft serial and registration number is shown on the mailing label.
